FACTORY CAPABILITY OVERVIEW

Cabinetry & Interior Materials Manufacturing

Custom cabinetry, vanities, kitchen islands, panels, hardware, and interior material packages manufactured in China for project buyers.

Prepared for builders, contractors, designers, and procurement teams.

BUYER REVIEW POINTS

Clear costs. Controlled quality. Export-ready records.

A concise factory path for overseas project buyers who need pricing clarity, production visibility, and shipment documentation.

01 Costing from drawings

Quotes based on drawings, quantities, specifications, and approved material options.

02 Factory checkpoints

Material approval, production follow-up, and documented pre-shipment checks.

03 Export documentation

Packing records, labels, loading photos, and shipment documents prepared before export.

Custom cabinetry and island packages

WHAT WE MANUFACTURE

Product scope

Factory manufacturing and export-ready support for residential, hospitality, commercial, and multi-category interior projects.

- 01 **Kitchen cabinet systems**
- 02 **Bathroom vanity systems**
- 03 **Kitchen islands and countertops**
- 04 **Cabinet hardware and functional parts**
- 05 **Panels and finish materials**
- 06 **Interior material packages**

FROM DRAWINGS TO SHIPMENT

A clear factory production path

A simple path from project documents to factory production, inspection, packing, and export handoff.

01 Project review

Drawings, BOQs, and requirements organized for manufacturing review.

02 Production planning

Samples, cost options, material decisions, and milestones confirmed.

03 Quality control

Materials, dimensions, finishes, hardware, and packing checked before shipment.

04 Export handoff

Packing records, shipping marks, loading photos, and export documents prepared.

Panel processing equipment

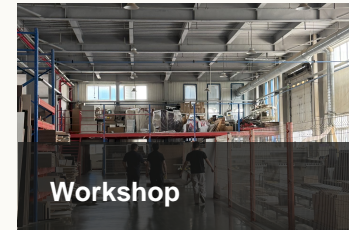

CHINA MANUFACTURING BASE

Factory capacity

Facilities support cabinet manufacturing, panel processing, finishing, warehousing, and project-based interior material production.

Warehouse

Workshop

Foshan / Guangdong and Langfang / Hebei production networks, China.

REMOTE VERIFICATION

Inspection, labels, packing and loading

Before shipment, we can prepare practical records that help overseas buyers review production remotely.

- QC** Dimensions, finishes, hardware, and assembly details checked.
- IN** Part numbering and installation notes reduce remote coordination.
- PK** Cartons, crates, pallets, labels, and project shipping marks.
- LD** Loading photos and shipment documents for remote review.

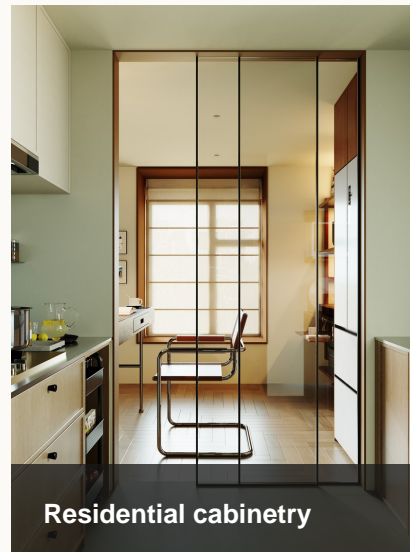

PROJECT REFERENCES

Built for project interiors

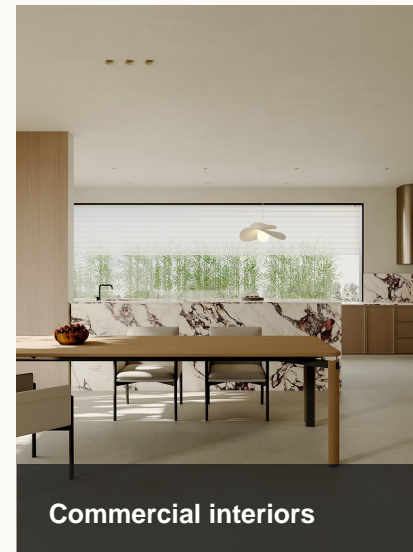

Reference work shows manufacturing capabilities across cabinetry, vanities, panels, and coordinated interior material packages.

Typical scopes include cabinetry, vanities, islands, panels, hardware, interior finishes, factory packing, project labels, export documents, and loading records.

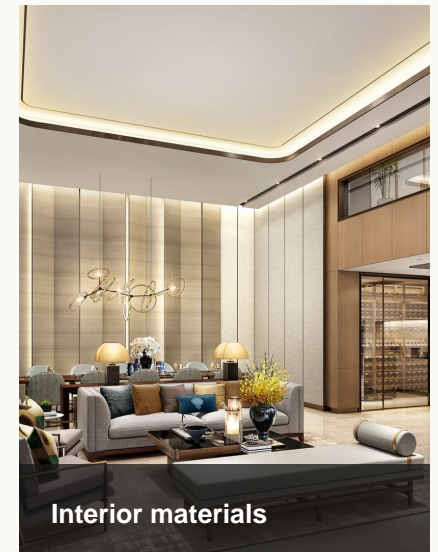

Residential cabinetry

Cabinets, island, and vanities.

Commercial interiors

Panels, vanities, and built-in millwork.

Interior materials

Surface panels and finish packages.

NEXT STEP

Send drawings for a factory quote

Send drawings, BOQs, material references, or project requirements. We will review manufacturing feasibility, cost range, and export requirements.
